

Ashlyn Nigh is excited to serve as the Alumni and Business Relations Vice President. She attends Everett High School as a senior. Being a member for three years, she has re-activated her school's FBLA chapter and serves as the current chapter president. The other schools in her school district have FBLA as well and often get together to go to conferences, do fun events, and do community service. Not only has she completed over 200 hours of community service, but she wishes to, in the next year, surpass 500+ hours.

Outside of FBLA, she likes to keep herself busy by being on her school's tennis team and swim and dive team. Her school also has an NJROTC program that she actively participates in and competes in the Drill team and the Marksmanship team and am the commander of our Academic team and co-commander of the CyberPatriot team. After she graduates, she would like to attend the Air Force Academy in Colorado Springs, Colorado, and continue on to medical school to become a neurosurgeon. This year in FBLA she wishes to be able to make a positive impact on people's lives and to share with all members the important skills that FBLA offers.
