

Ekaterina Matsko (Katya) is a cat-loving junior at Sedro-Woolley High School and is honored to serve WA FBLA as the Northwest Region Vice President. She has been an FBLA member for two years, strongly going on three. During her time in FBLA, Katya has served as chapter vice president as well as a member of the Northwest regional board. Katya has received the “Future” level Business Achievement Award and was the WA FBLA state champion in the “Introduction to Public Speaking” event.

After graduating high school, she plans to attend Stanford University or the University of Washington to pursue a degree in International Relations or Mathematics, as well as a minor in Business. Then, Katya’s ultimate plan is to work for the United States government or NASA. In her free time, she enjoys playing Minecraft with friends, playing the accordion, or watching TED Talks on YouTube.

This year, Katya wants to help fuel the leadership and self-confidence drive in the lovely FBLA members. She is excited to meet new people and wants FBLA members to know that whenever they feel stressed about life in the future, at FBLA, a member’s future success is our business.
