

JT Gasper is proud to be serving as your Northeast Region Vice President. As a Junior at Cheney High School and in his 5th year of FBLA, he is excited to lead the Northeast Region. In FBLA, he has placed in multiple events, including Introduction to Information Technology and Digital Video Production at the State Level. In addition, he has represented WA FBLA twice at the National Leadership Conference. He is also currently a Future level in the Business Achievement Awards and is seeking his Business level as well.

JT has been around technology his whole life and is interested in pursuing it after high school. He is going to achieve his CCENT in Cisco Networking before he graduates high school, and CCNA shortly after that. When he's not serving WA FBLA, you can find him running or hanging out with friends. Through FBLA, he has learned to reach above what he ever thought was possible, made countless lifelong memories, and met many people that have impacted his life. FBLA has taught him how to use his skills to accomplish any goal that is put before him.
