

Michael Schwamborn is a Senior at Hazen High School. A third-year member, he attended NLC 2019 through the Institute for Leaders program where his passion for service blossomed. He now proudly serves as your 2020-21 State Public Relations Officer and actively participates in his local chapter.

Outside of FBLA, he is enthusiastically giving back to his community. When he's not out on the hiking trail, he can be seen volunteering or learning a new skill. Using the skills FBLA has taught him, Michael is also a core member of an organization serving High School students in the Greater Seattle Area who are passionate and experienced in Computer Science. Michael believes that community is at the heart of everything he does. He believes in the power of networking - the more people you know, the more opportunities you have to learn.

With aspirations to one day attend Stanford University to pursue a future in the computer science and business fields, Michael understands that hard work and dedication leads to success. Starting from humble beginnings where he joined FBLA practically by accident, he is ever so grateful to those who supported and guided him to where he is today. That same passion that was introduced to him and that kept him involved in the organization is what he wants to pass on. Not only to up and coming members, whose potential interests could be unlocked, but also the current members of FBLA.
