

Sathvik Nallamalli is a senior at Olympia High School and is currently serving as your State President! In addition to serving his second term as a Washington State Officer, he also serves at the National level as the Executive Director of Resources for the National President's Executive Council. Even though Sathvik's journey into FBLA was an accident, he's given purpose and meaning to every minute he spends in this organization. His vision for Washington is to open more opportunities for members and network with business professionals to bring longevity to this organization. Now in his fourth year of FBLA, Sathvik is extremely dedicated to this organization and is forever thankful to his advisers, family, and friends for the support.

Sathvik began as Chapter Treasurer and served as Region VP for WAFBLA. Through these experiences, he's learned the direction to take Washington. His biggest advances in FBLA include developing a mobile app to manage any chapter, securing large business sponsors, and launching a new mentorship initiative. He has elevated his journey in FBLA by serving nation-wide and being featured on multiple state Instagram accounts providing insight, advice, and updates for FBLA. Sathvik hopes to major in medicine or engineering while still holding onto his entrepreneurship passion to serve his community and research new advances. Post-FBLA, he hopes to see himself at Johns Hopkins or Stanford.

Outside of FBLA, Sathvik is passionate about technology, business, medicine, research, and the interdisciplinary fields among them. He spends time researching in biomedical engineering and working at universities. Having earned Grand Awards amongst the entire world at international competitions and always thinking of innovative ideas, he carries this same mindset to FBLA to strengthen his fellow students' journey. He is also a huge fan of basketball, especially Kobe Bryant and loves messing around the kitchen, cooking!

Sathvik is inspired and motivated by the opportunity to serve the state this year and is eager to network with you all and enhance your experience in FBLA. Like he promised in the beginning, Sathvik wants all the members to 'RISE UP!' and leave FBLA with experiences and resources for the future!
