

Smriti Somasundaram is a junior at Olympia High School and is honored to be serving as the 2020-2021 Capital Region Vice President. This is her third year as an FBLA member. Smriti's favorite memory was experiencing NLC for the first time in 2019 in San Antonio, Texas. She has qualified nationally for both Mobile Application Development and Introduction to Public Speaking.

Joining FBLA exposed Smriti to the world of business, leading her to internships and many other opportunities for growth. She has also achieved the Future Level of the Business Achievement Awards.

Outside of FBLA, Smriti is committed to dance, coding, and running. She also founded a nonprofit organization in 2018, DOT4Kids, that works to bring resources and opportunities in technology to students.

Smriti plans on attending a four-year college, studying in computer science and business so she can provide others with the opportunities that she was fortunate enough to receive. In a world constantly changing with technology, she believes her skills can help benefit her surroundings.

Smriti is grateful for the amazing opportunities and new relationships made since she joined FBLA and is excited to create new memories and help other members experience the same.
